

## EV HPRU series

Controllers for reversible single- or double-circuit heat pumps with up to 6 compressors

Controllori per pompe di calore reversibili mono e bicircuito con un massimo di 6 compressori

### Main features

Management of on-off and variable capacity compressors  
Gestione di compressori di tipo on-off e a portata variabile

Ready-to-use application software  
Software applicativo pronto all'uso

Management of on-off and modulating fans  
Gestione di ventilatori di tipo on-off e modulanti

Standard 74 x 32 mm or 4 DIN modules format  
Formato standard 74 x 32 mm o 4 moduli DIN

2 Triac outputs for direct management of fan speed and external SSRs  
2 uscite Triac per la gestione diretta della velocità dei ventilatori e di SSR esterni

Management of the DHW tank circuit (with stratification and priorities management)  
Gestione del circuito del serbatoio ACS (con gestione della stratificazione e delle priorità)

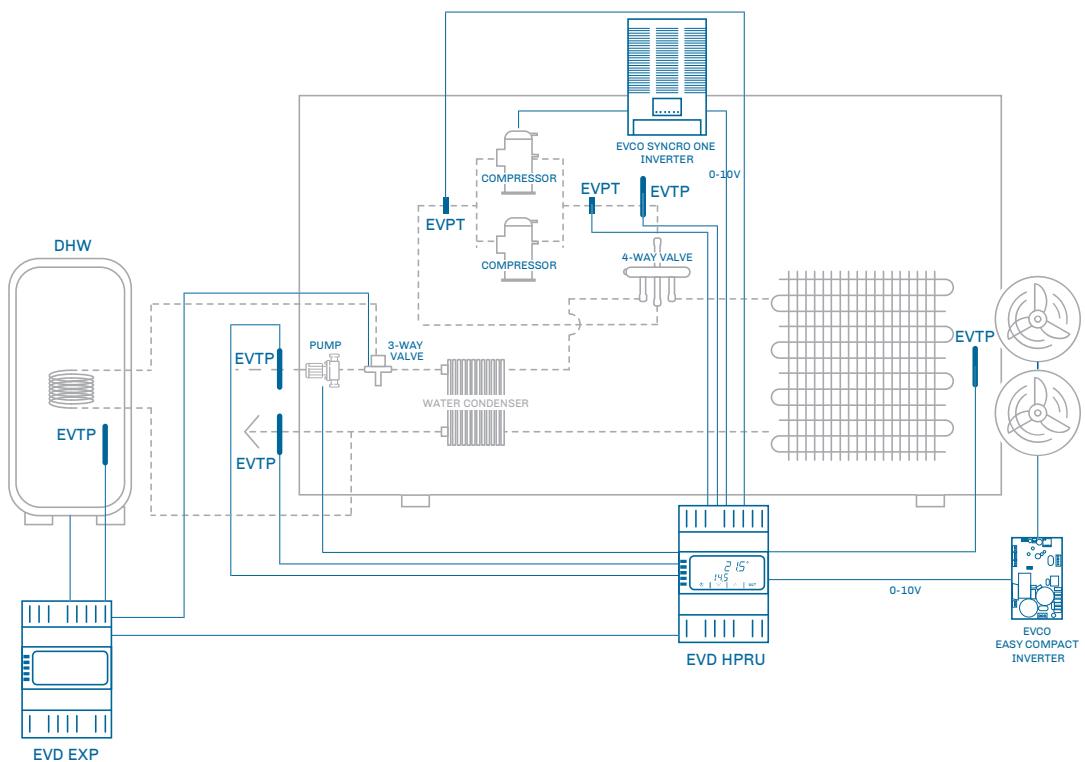

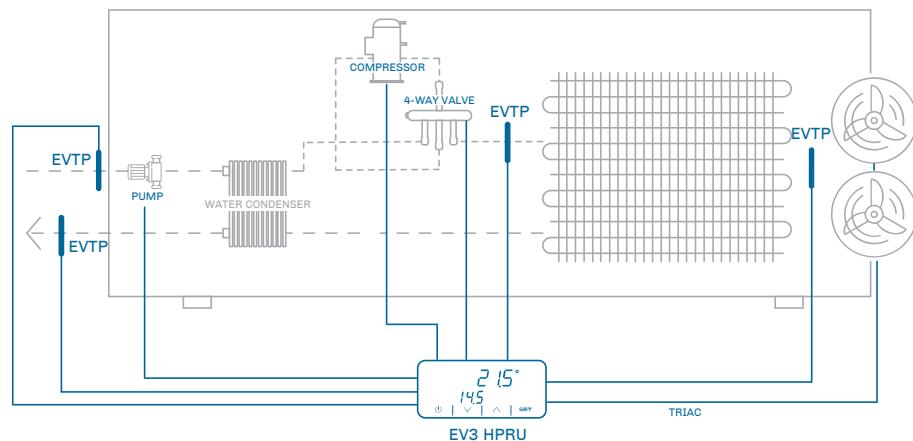

Management of the solar panels circuit  
Gestione del circuito dei pannelli solari

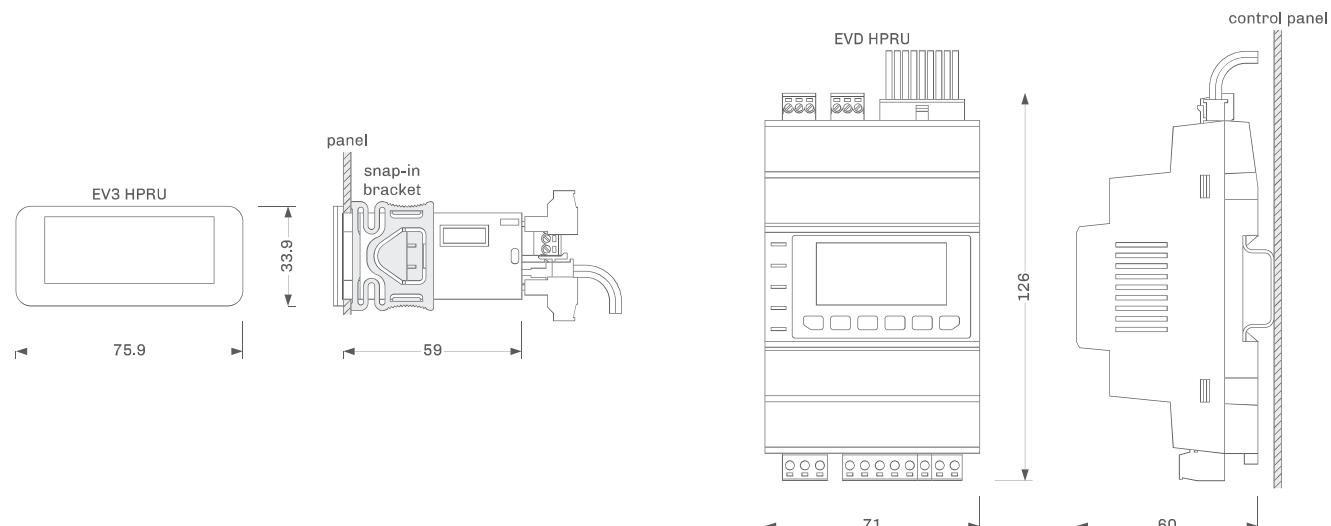

Management of up to 6 compressors  
Gestione fino a 6 compressori

## Possible scenarios

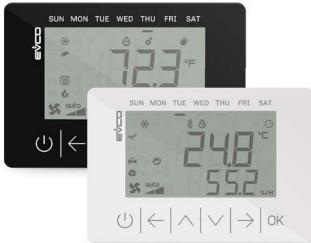

## Dimension & Installation (mm)

## Available codes & technical features

	EV3 HPRU		EVD HPRU		
Purchasing codes   Codici di acquisto	EV3 914LM2	EV3 916LM2GF	EVD 914BM9	EVD 914BM9MF	EVD 914LM9MF
<strong>REALIZATION   ESECUZIONE</strong>					
Compact, in plastic box, blind   Compatta, in contenitore plastico, cieca			•	•	
Compact, in plastic box, with built-in user interface   Compatta, in contenitore plastico, con interfaccia utente integrata	•	•			•
<strong>FORMAT   FORMATO</strong>					
74x32 mm   74x32 mm	•	•			
4 DIN modules   4 moduli DIN			•	•	•
<strong>USER INTERFACE   INTERFACCIA UTENTE</strong>					
2-row LED display, 6 keys   Display LED a 2 linee, 6 tasti					•
2-row LED display, 4 capacitive keys   Display LED a 2 linee, 4 tasti capacitivi	•	•			
<strong>MOUNTING   INSTALLAZIONE</strong>					
Panel mounting   A pannello	•	•			
DIN rail mounting   Su guida DIN			•	•	•
<strong>CONNECTIONS   CONNESSIONI</strong>					
Micro-Fit connectors   Connettori Micro-Fit	•	•	•	•	•
Edge connectors   Connettori Edge	•	•			
Plug-in screw terminal blocks   Morsettiera estraibili a vite	•	•	•	•	•
<strong>POWER SUPPLY   ALIMENTAZIONE</strong>					
12 VAC   12 VAC	•	•			
115... 230 VAC   115... 230 VAC			•	•	•
<strong>ANALOGUE OR DIGITAL INPUTS   INGRESSI ANALOGICI O DIGITALI</strong>					
Configurable (NTC or dry contact digital input)   Configurabile (NTC o ingresso digitale a contatto pulito)	5	5	5	5	5
Configurable (NTC/0-5 V/0-10 V/4-20 mA or dry contact digital input)   Configurabile (NTC/0-5 V/0-10 V/4-20 mA o ingresso digitale a contatto pulito)	2	2	2	2	2
<strong>DIGITAL INPUTS   INGRESSI DIGITALI</strong>					
Configurable (dry contact)   Configurabile (a contatto pulito)	1	1	1	1	1
Configurable (up to 2 KHz pulse trains dry contact)   Configurabile (a contatto pulito per treni di impulsi fino a 2 KHz)	2	2	2	2	2
<strong>ANALOGUE OUTPUTS   USCITE ANALOGICHE</strong>					
Configurable (0-10 V/PWM/phase-cut)   Configurabile (0-10 V/PWM/a taglio di fase)	2	2	2	2	2
<strong>DIGITAL OUTPUTS   USCITE DIGITALI</strong>					
Configurable (3 res. A @ 250 VAC SPST)   Configurabile (3 A res. @ 250 VAC SPST)	4	4	2	2	2
Configurable (8 res. A @ 250 VAC SPDT)   Configurabile (8 A res. @ 250 VAC SPDT)			1	1	1
Configurable (12 res. A @ 250 VAC SPST)   Configurabile (12 A res. @ 250 VAC SPST)			1	1	1
<strong>TRIAC   TRIAC</strong>					
Configurable (200 mA @ 250 VAC)   Configurabile (200 mA @ 250 VAC)		1			
Configurable (2 A @ 250 VAC)   Configurabile (2 A @ 250 VAC)		1			
<strong>OPEN COLLECTOR   OPEN COLLECTOR</strong>					
Configurable (12 V 40 mA max.)   Configurabile (12 V 40 mA max.)			1	1	1
<strong>COMMUNICATION PORTS   PORTE DI COMUNICAZIONE</strong>					
INTRABUS   INTRABUS	1	1	1	1	1
MODBUS slave RS-485   RS-485 MODBUS slave		1		1	1
<strong>OTHER FEATURES   ALTRE CARATTERISTICHE</strong>					
Real time clock   Orologio		•		•	•
Alarm buzzer   Buzzer di allarme	•	•			•

## Compatible user interfaces

**EVJ LCD**

LCD static display, 6 capacitive keys and Bluetooth connectivity  
Display statico LCD, 6 tasti capacitivi e connessione Bluetooth

**Vled 3**

2-row LED display, 4 capacitive keys and IP65 protection  
Display LED a 2 righe, 4 tasti capacitivi e protezione IP65

## Compatible I/O expansions

**EVD EXP**

115... 230 VAC power supply, 17 I/Os and INTRABUS port  
Alimentazione 115... 230 VAC, 17 I/O e porta INTRABUS

## Available on demand

**EVIF22ISX**

INTRABUS/RS-485 serial interface, It also works as programming key for the solutions EV HRV/CHILL/HPRU  
Interfaccia seriale  
INTRABUS/RS-485. Funge anche da chiave di programmazione per le soluzioni EV HRV/CHILL/HPRU

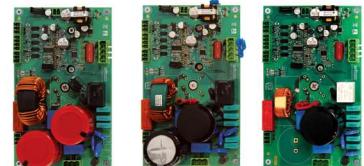

**EVIF20SUXI**

RS-485/USB serial interface  
Interfaccia seriale RS-485/USB

**EVRMS & EVRTS**

Fan speed phase-cut regulators  
Regolatori velocità ventilatori a taglio di fase

**COMPACT series**

Single-phase inverters for asynchronous motors - 0.75 KW, 1.5 KW, 2.2 KW @ 230 VAC  
Inverter monofase per motori asincroni - 0.75 KW, 1.5 KW, 2.2 KW @ 230 VAC

**EVTP**

Temperature probes for industrial environment  
Sonde di temperatura per ambienti industriali

**EVPT**

Pressure transducers for industrial environments  
Trasduttori di pressione per ambienti industriali

**ECTSF**

Transformer series  
Serie di trasformatori

**SYNCRO series**

Single-phase inverters for asynchronous and synchronous single-phase motors, with PFC- 4 KW, 4.8 KW, 5.5 KW @ 230 VAC  
Inverter monofase per motori asincroni e sincroni, con PFC- 4 KW, 4.8 KW, 5.5 KW @ 230 VAC
